My sincere condolences to the family. I had the pleasure of working with Robert for the first time when we met at Troy Design. He had come over from Time Engineering and became my Leader. We golfed together in the company league and had many good times on the course as well as the 19th hole playing euchre! On one occasion I accompanied him and his two young sons to Point Pelee to dip for smelt. Unfortunately, it was too windy, but we had many laughs together just the same. His humor and his patience with me will be remembered. Once again I worked with Robert at HMS just a few years ago. He was the same gentleman that I remembered. Rest in peace Robert...

Dear Paul – My deepest condolences on the passing of your father. I hope you draw some measure of comfort from knowing that your GE family is thinking of you and your family during this difficult time. I lost my mother several years ago and while the grief was overwhelming it was a blessing to know how many people were there to support me. Know that you're supported. You and your family will be in my thoughts and prayers in the coming weeks...
