“ I'll never forget the guy parked across the street watching football practice, year after year. Lenny wasn't a dad that watched so he could tell coaches what he thought or give his own coaching ideas. He just wanted to see his kids play. Sharing the memories of him yelling from the fence line as he followed the ball up and down the field during games will never get old. It was always noticed he truly cared about the well being of his family. I hope he rests in peace!

“ Lenny truly was a very proud dad! Never saw a dad enjoy watching his boys play sports more than Lenny! I used to love visiting and getting my haircut at the Langes! I can still hear him say when I walked in the door, hey kid how you doing? Memories I will always cherish!
